

Revised prices for IoMBO clothing from 1st November 2016

The company which supplies the embroidered IoMBO clothing has recently increased its prices - albeit by a fairly small amount - such that items are now 50p - £1.00 more expensive (inc p&p) than in August.

Given the reduced level of orders now being received we fall below the thresholds for achieving higher levels of discount on bulk orders [of the same item], though it still seems better to submit orders in a suitable timeframe rather than wait weeks/longer in the hope of reaching these thresholds. Even so, we hope you feel that the pricing structure still represents good value for money and certainly all the feedback on item quality has been extremely good !

Order early for Christmas - turnover time from the clothing company is 2-3 weeks, with additional time to be added for postage of items from me to you. **I will place an order on 20th November, this will be the last order before Christmas, so if you want any IoMBOT clothing for Xmas gifts contact me before 20:00 on 20th November.**
